80240017

CAD Points

100 CAD Points
CAD Points for design of Customized Abutments, Implant Bars & Bridges, and Removable Partial Dentures.

Item number
80248100

200 CAD Points
CAD Points for design of Customized Abutments, Implant Bars & Bridges, and Removable Partial Dentures.

Item number
80248101

500 CAD Points
CAD Points for design of Customized Abutments, Implant Bars & Bridges, and Removable Partial Dentures.

Item number
80248102

Notes:
26. When a larger Inbox is required, the full price of the new Inbox is charged and the prorated price for the previously purchased Inbox is deducted from the new price. The subscription cost of the new Inbox applies from this point.
### Miscellaneous

**Multi-Dongle**
Additional dongles with distribution of licenses and site options. Second dongle inserted into same PC as existing dongle. All licenses on existing dongle, second dongle will be consolidated. Can be purchased from different retailer than existing dongle. Order of minimum 5 dongles.

**Item number** 80602507

---

**Scanner Interface Plate**
Works with all lab scanner models.

**Item number** 06070009

---

**Occlusion Setup Tool incl. 4 high-precision Interface Plates & 1 Calibration Plate**
Allows user to set up upper and lower arches prior to scanning and to skip the bite scan. Requires Dental System™ 2.9.9.2 or newer software versions. Used for scanners with large interior, including D750, D850, D900L, D1000 and D2000 scanner models.

**Item number** 80600104

---

**Calibration Plate for Occlusion Setup Tool**
Used as replacement item for the calibration plate included in the delivery of the Occlusion Setup Tool.

**Item number** 80600120

---

**Interface Plate for Occlusion Setup Tool**
Used as replacement item for the interface plates included in the delivery of the Occlusion Setup Tool.

**Item number** 80600121

---

**Scan Height Adaptor - 1 stripe**
To be used with and included with all lab scanners with large interior (D750, D850, D900L, D1000 and D2000 (left axis)). To be used with interface plate on top to ensure correct position of models and dies for scanning. Can be taken out of the scanner when scanning mounted models using transfer plates (see note 27).

**Item number** 80600118

---

**Scan Height Adaptor - 2 stripes**
To be used with and included with D2000 (right axis). To be used with interface plate on top to ensure correct position of models and dies for scanning. Can be taken out of the scanner when scanning mounted models using transfer plates (see note 27).

**Item number** 80600119

---

**Dental 2-cast Fixture**
Fixtures for all desktop scanner models. Used for fixing the occlusal alignment of upper and lower cast during scanning.

**Item number** 80200002

---

**Dental Wax-up bridge Fixture**
Fixtures for all desktop scanner models. Used for fixing complete wax-up bridges in the scanner.

**Item number** 80200004

---

**Impression Fixture**
Fixtures for all desktop scanner models. Used for fixing dental impressions in the scanner.

**Item number** 80200005

---

**Implant Cast Fixture**
Fixtures for all desktop scanner models. Used for fixing implant models in the scanner.

**Item number** 80600000

---

**Full Denture Fixture Ivoclar**
Fixtures for all desktop scanner models. Used for fixing full arch single and triple tray impressions in the scanner.

**Item number** 80600111

---

**Full Denture Fixture**
Fixtures for all desktop scanner models. Used for fixing full arch single and triple tray impressions in the scanner.

**Item number** 80600113

---

**Blu-Tack®**
1 package of Blu-Tack® scan clay (90 gram).

**Item number** 02050005

---

**Personal Computer - HP 800 G1 SFF Windows 8Pro**
For D500, D700, D710, D750, D800, D810 scanner. Including mouse and keyboard (monitor is NOT included).

**Item number** 80602638

---
**Personal Computer - HP Z230 Workstation TWR Windows 8**
For D850, D900, D900L, D1000, D2000 scanner. Including mouse and keyboard (monitor is NOT included).

**Item number** 80602636

---

**SpaceExplorer 3D Mouse**
SpaceExplorer 3D Mouse (3D Connexion) with 3Shape logo. Six-degrees-of-freedom technology, QuickView navigation keys.

**Item number** 02019104

---

**3Shape Articulator**
3Shape Articulator used for articulation of digital lab models designed in 3Shape’s Model Builder™.

**Item number** 80610005
Transfer Plates and more

(Transfer plates used to transfer the model's position from the physical articulator to the dynamic virtual articulator in Dental System™.)

Occlusion Transfer Calibration Object
For calibrating the transfer of position from physical articulator to virtual articulator. User mounts object in gypsum to transfer position and can skip the bite scan. Can be used with any transfer plate. Works with all scanners. Included with D900L, D1000 & D2000. Item number 80600109

Adesso Artex Transfer Plate - 1 stripe
To be used with all large interior scanners (D750, D850, D900L, D1000 and D2000 (left axis)). Used with Baumann Adesso coupling system typically used with Ivoclar Stratos 300 articulator. Also used with ACR (Artex compatible) articulators (see note 27). Item number 80600112

Adesso Artex Transfer Plate - 2 stripes
To be used with D2000 scanners (right axis). To be purchased in addition to Adesso Artex Transfer plate - 1 stripe (left axis) to be able to benefit from the D2000 scanner's full potential. Used with Baumann Adesso coupling system typically used with Ivoclar Stratos 300 articulator. Also used with ACR (Artex compatible) articulators (see note 27). Item number 80600117

Whip Mix Transfer Plate - standard interior
To be used with Whip Mix articulators and D500, D700/D710, D800/D810, D900 scanners. Item number 80600101

Whip Mix Transfer Plate - 1 stripe
To be used with all large interior scanners (D750, D850, D900L, D1000 and D2000 (left axis). Used with Whip Mix articulators (see note 27). Item number 80600106

Whip Mix Transfer Plate - 2 stripes
To be used with Whip Mix articulators and D2000 scanners (right axis). To be purchased in addition to Whip Mix Transfer plate - 1 stripe (left axis) to be able to benefit from the D2000 scanner's full potential (see note 27). Item number 80600114

SAM Transfer Plate - standard interior
To be used with SAM articulators and D500, D700/D710, D800/D810, D900 scanners. Item number 80600102

SAM Transfer Plate - 1 stripe
To be used with all large interior scanners (D750, D850, D900L, D1000 and D2000 (left axis). Used with SAM articulators (see note 27). Item number 80600107

SAM Transfer Plate - 2 stripes
To be used with SAM articulators and D2000 scanners (right axis). To be purchased in addition to SAM Transfer plate - 1 stripe (left axis) to be able to benefit from the D2000 scanner's full potential (see note 27). Item number 80600115

KaVo Protar Transfer Plate - standard interior
To be used with KaVo Protar articulators and D500, D700/D710, D800/D810, D900 scanners. Item number 80600103

KaVo Protar Transfer Plate - 1 stripe
To be used with all large interior scanners (D750, D850, D900L, D1000 and D2000 (left axis). Used with KaVo Protar articulators (see note 27). Item number 80600108

KaVo Protar Transfer Plate - 2 stripes
To be used with KaVo Protar articulators and D2000 scanners (right axis). To be purchased in addition to KaVo Protar Transfer plate - 1 stripe (left axis) to be able to benefit from the D2000 scanner's full potential (see note 27). Item number 80600116

Notes:
27. 1 or 2 stripes on the side of each transfer plate (and the matching Scan Height Adaptor) indicate the type of transfer plate (and the matching Scan Height Adaptor). 1 stripe = for D750, D850, D900L, D1000 and D2000 (left axis). 2 stripes = D2000 (right axis) – to help you inserting the parts correctly into the respective scanner model.
Post & Core Scan Posts
(Used to scan and locate shape and position of the posts. Can be used intraorally and on gypsum models. See note 28.)

* Minimum order size of 50 scan posts in total. You can freely select from all above single scan posts in the same category, e.g. APOL.

Notes:
28. Post & Core Scan Posts are being sold through 3Shape TRIOS A/S.
Accuracy Validation Objects

ISO 12836 Objects
2 objects according to ISO 12836 standard, i.e. inlay object and bridge object. To be used as reference objects. Measured individually on CMM machine. Delivered with measuring report. You can purchase this object to confirm your scanner's accuracy by scanning the object yourself.

Item number 80600110

Implant Bar Validation Object
High precision implant bar object including scan lags, to control accuracy of scanner for implant bars and bridges. To be used as reference object. Measured individually on CMM machine. Delivered with measuring report. To be used with D700/710, D750, D800/810, D850, D900/900L, D1000 and D2000 scanners.

Item number 80600002

Warranty (Hardware)

Limited Warranty on 3Shape hardware
Limited Warranty on 3Shape hardware 1 year from purchase date (see note 29).

Included in scanner price.

Limited Warranty +1 Year
Extend the 1-year limited warranty on 3Shape hardware by 1 additional year (see note 29).

Item number 99000020

Limited Warranty +2 Years
Extend the 1-year limited warranty on 3Shape hardware by 2 more years (see note 29).

Item number 99000030

3Shape Academy

Please register for a training at 3Shape Academy (visit support.3shape.com or contact training@3shape.com for customized training). As a reseller you are obliged to participate in the Update Training to ensure your organization is up-to-date and has the best possible knowledge regarding our Dental System™. Training is offered at 3Shape offices in Copenhagen, Denmark, New Jersey, USA, Kiev, Ukraine, Shanghai, China, and Milan, Italy in English, German, Italian, Russian, French, and Chinese.

Update Training / 1 Day Annual Reseller Release Training (Mandatory)
Learn usage, tools and understand functionality of the latest annual release of the Dental System™. Requires knowledge of the previous versions of the Dental System™.

Included as part of LABcare™.

Basic Training (2 days, max 14 persons)
Provides attendees with the ability to successfully and efficiently operate Dental System™. Dental background required. Training at 3Shape location.

Item number 99500000

Advanced Training (1 day)
Provides attendees with the ability to use Dental System™ in advanced mode. Advanced Dental background and knowledge of Dental System™ recommended.

Item number 99500010

Customized Trainings or Presentations
To be agreed between the particular reseller and 3Shape Academy.

Item number 99500020

Travel and Accommodation
For the 3Shape Trainer.

Item number 99500050

Notes:
29. Please refer to 3Shape Terms and Conditions for Extended Warranty for details.

## Notes:

30. Implant Studio™ is not yet available in all countries. For more information about availability in your country, please contact 3Shape or your local 3Shape representative.

Implant Studio™ is developed and manufactured by 3Shape Medical A/S.
3Shape lab scanners for every need

D500
Entry scanner to CAD/CAM
- 2 x 1.3 MP cameras, Red Laser
- Accuracy: 10 µm (ISO)
- Die scan time: 40 sec
- Full arch scan time: 115 sec

NEW D750
Workhorse of productivity
- 2 x 1.3 MP cameras, Blue LED
- Accuracy: 10 µm (ISO) / 12 µm (Implant bar)
- Die scan time: 25 sec
- Full arch scan time: 55 sec
- Extended interior and multi-die feeder

NEW D850
Implant bar accuracy
- 2 x 5 MP cameras, Blue LED
- Accuracy: 7 µm (ISO) / 8 µm (Implant bar)
- Die scan time: 25 sec
- Full arch scan time: 55 sec
- Extended interior and multi-die feeder
- Texture scanning

D900L
High speed and colors
- 4 x 5 MP cameras, Blue LED
- Accuracy: 7 µm (ISO) / 8 µm (Implant bar)
- Die scan time: 15 sec
- Full arch scan time: 35 sec
- Color texture scanning
- Extended interior and multi-die feeder

NEW D1000
Ultra-high productivity
- 4 x 5 MP cameras, Blue LED Multi-line
- Accuracy: 5 µm (ISO) / 8 µm (Implant bar)
- Die scan time: 15 sec
- Full arch scan time: 25 sec
- Color texture scanning
- Extended interior and multi-die feeder
- No need for separate die scan

NEW D2000
All-in-one scanning for max volume throughput
- 4 x 5 MP cameras, Blue LED Multi-line
- Accuracy: 5 µm (ISO) / 8 µm (Implant bar)
- Die scan time: 15 sec
- Full arch scan time: 25 sec
- Color texture scanning
- Extended interior and multi-die feeder
- No need for separate die scan
- All-in-one scanning: room for 2 models
System Requirements for 3Shape Dental System™

<table>
<thead>

* For simultaneous scanning and modelling of large cases, we recommend 16GB RAM.
** We recommend 1TB Hard Drive if used as a stand-alone system or a server with the order folder.
*** D250 scanners require serial port. For D250 scanners, 3Shape supports only PCs purchased from 3Shape as very few PCs are compatible.

PLEASE NOTE!

- We recommend to use all 3Shape lab scanners only on USB 2.0 ports.
- 3Shape lab scanners do not work on shared USB connections.
- It is recommended to connect keyboard, mouse and dongle to free USB 3.0 ports, when available.
- For D250 scanners, we recommend keeping the existing PC delivered with the system for scanning, and installing a new PC (Windows 7, 64-bit, 6-8 GB RAM) as a design station.

How can labs become TRIOS® Ready?

Find out more about our TRIOS® Ready Program here: www.3shapedental.com/triosready
This Product Catalog includes products that are developed and manufactured by 3Shape A/S, 3Shape TRIOS A/S and 3Shape Medical A/S.
